God's World

O world, I cannot hold thee close enough!
Thy winds, thy wide grey skies!
Thy mists, that roll and rise!
Thy woods, this autumn day, that ache and
sag
And all but cry with color! That gaunt crag
To crush! To lift the lean of that black bluff!
World, World, I cannot get thee close enough!

Long have I known a glory in it all,
But never knew I this:
Here such a passion is
As stretcheth me apart,—Lord, I do fear
Thou'st made the world too beautiful this
year;
My soul is all but out of me,—let fall
No burning leaf; prithee, let no bird call.

Edna St. Vincent Millay

DEDICATION JAMES GUY MCCANN

A native of Alleghany County, Mr. McCann is a graduate of Sparta High School and Appalachian State University where he obtained Bachelor of Science and Master of Arts degrees. He graduated cum laude. He completed some additional work at the University of North Carolina, located in Chapel Hill.

Mr. McCann headed the mathematics department at North Surry High School and taught at Flat Rock High prior to coming to Surry. He also served as a case worker for the Surry County Welfare Department.

At Surry Community College, Mr. McCann has been a mathematics department instructor, math department chairman, and a member of the science and physical education departments from 1967 to the present.

His family consists of wife Nancy, who teaches at Dobson Elementary School, and two children, Ellen and Mike. They are all members of Dobson Methodist Church.

BOARD OF TRUSTEES

Seated: Mrs. Hal Stuart, Ms. Susan Johnson, Mr. Clyde Johnson, Mr. John P. Frank, Ms. Eleanor H. Jones, Mrs. W. Eric Jarrell, Mr. Oscar W.S. Smith. Standing: Mr. W. Frank Comer, Mr. Fletcher Harris, Mr. Robert E. Merritt, Mr. Floyd E. Reeves, Dr. Swanson Richards, Mr. B.F. Folger, Jr.

Mr. Clyde Johnson

Ms. Susan Johnson

Dr. Jim Reeves

PRESIDENT OF THE COLLEGE

DR. SWANSON RICHARDS

A graduate of Appalachian State University, and Florida State University, Dr. Swanson Richards has been president of Surry Community College for twelve years. He served in numerous positions in the Surry County School System before coming to the college.

Dr. Richards sets a good example for the students through his leadership roles in several organizations within the county and state. His outstanding personality and service to the college distinguishes him as an excellent president.

BLUE RIDGE PARKWAY

September 11 marks the 50th anniversary of the Blue Ridge Parkway, a modern wilderness road covering 470 miles across the crest of the Blue Ridge Mountains. The Parkway stretches through Virginia into North Carolina, and ends at the foot of the Great Smoky Mountains.

The idea for the Parkway was implemented by Harold Ickes, Secretary of the Interior. The main objective was to preserve the raw beauty of the mountains with roads of horizons that ran parallel to the range.

The project began in 1935. The first 12 miles started at the Lowgap-Sparta Road near Cumberland Knob. Many of the men who began the project came from the unemployment lines of Alleghany County. Almost 90% of the labor force was comprised of mountain men from that area.

Construction on the Parkway was slowed by World War II. Later, disputes with the Cherokee Nation caused the original route to be moved to the northwest edge of Cherokee and ended at the foot of the Smokies. The section of Parkway near Asheville was not completed until the 1960's. The final section concentrates on the Grandfather Mountain area and includes the Linn Cove Viaduct. This 1,243 ft. S-shaped, precast, segmental bridge is the first of its kind in the United States. The target date for completion is 1987.

In 1984 alone, over 19 million visitors enjoyed the beautiful unit of the National Park System. Camping, hiking and picnicking are only a few activities available.

Doughton Park is known for excellent camping and hiking trails. Grandfather Mountain offers everything a vacationist could ask for. There, as well as in many areas around Fancy Gap and U.S. 52, one will also find crafts of every description that thrive to keep the heritage of the mountain people alive.

CAMPUS

LIFE

CAMPUS LIFE

In the beginning ...

There are classes,

New students,

Parties,

Sports,

And friends and lovers.

There are nurturing times,

Times of relapse,

And times to escape.

There are jokes,

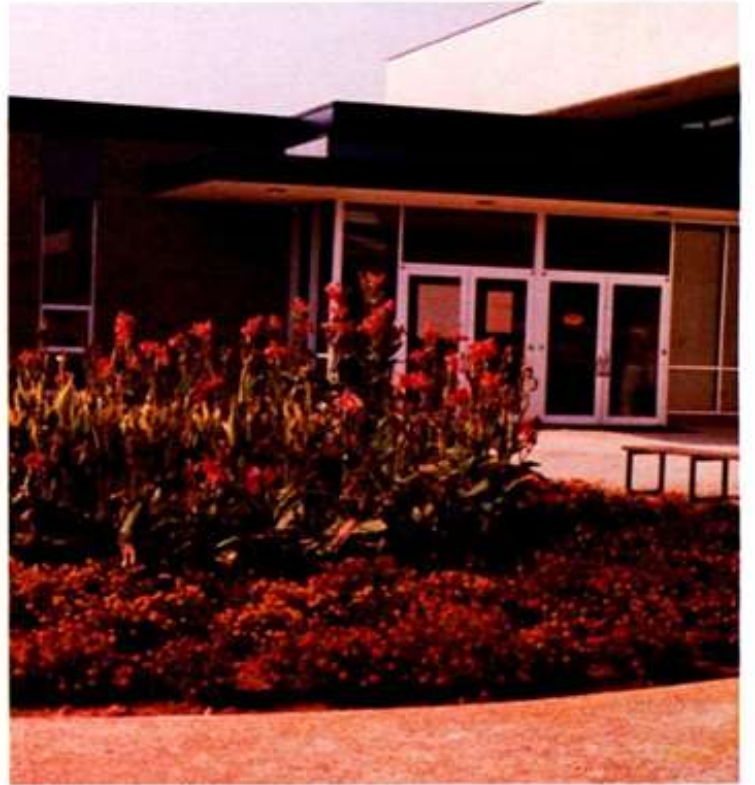

Companions,

And fringe benefits.

The storm begins.

All's quiet again.

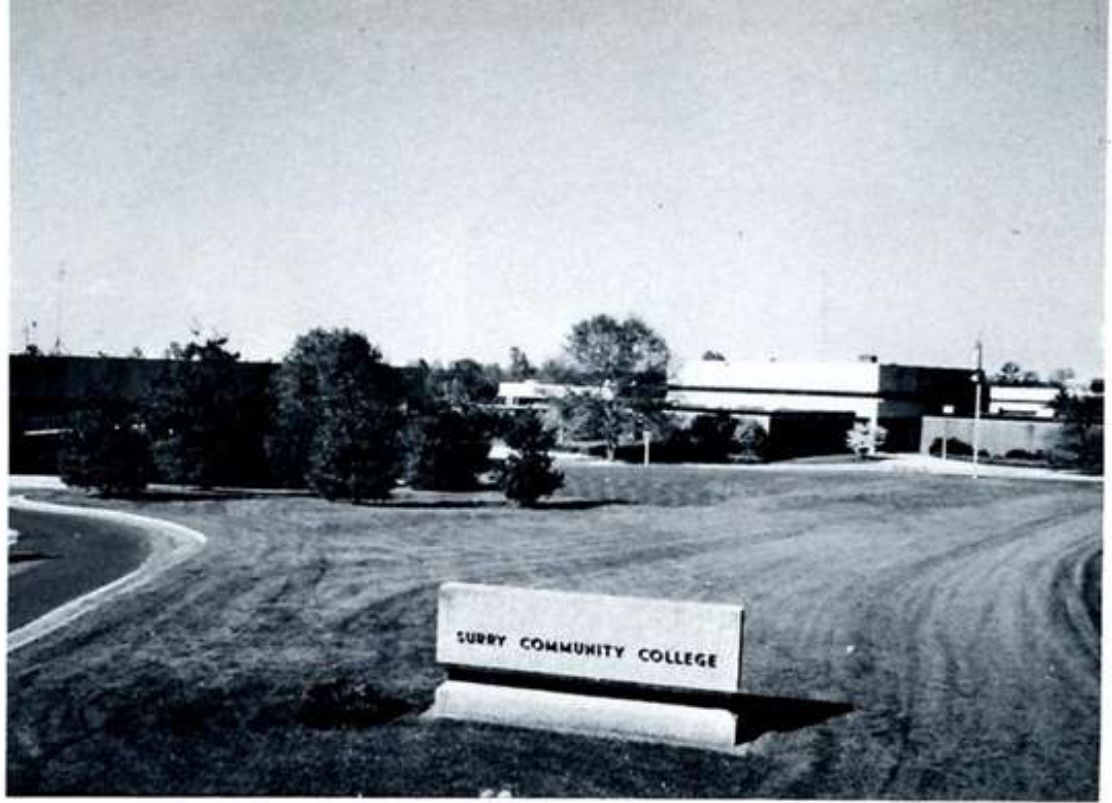

STATEMENT OF PURPOSE

The purpose of Surry Community College is to enable citizens of our area to increase their skills and knowledge. "To Each His Farthest Star" is an appropriate motto. Surry Community College will fulfill its purpose by:

- Providing, through open door admissions and within the statutory and fiscal limits, programs and instructions which will give each student the opportunity to state where he is and progress toward his occupational and educational objectives.
- Ensuring that when each student has successfully completed a program that he will have the skill and knowledge to meet the demands of the job for which he has prepared or to transfer and succeed at another institution.
- Providing social, cultural, and recreational activities to assist students in developing their leadership and social skills, their appreciation of aesthetic values, and a more productive use of their leisure time.
- Developing effective ways of evaluating college programs, to make adjustments as needed, and to make appropriate reports to the public.
- Encouraging and stimulating the innate desire for leading.
- Making Surry Community College a stimulating and rewarding place to work and study.

STUDENTS

First we get hot,

Solve our problems;

Then we cool off.

Go to the library;

And get really involved.

We then go to class,

ON CAMPUS

Decisions, Decisions!

Should we study or "pig out?"

Do we wait for them?

Should we go or stay for special events?

We come to entertain you.

It's not scary to give blood.

I'm going to give blood: is it okay?

Bloodmobile gets a good start.

Final result.

I'll be in my office shortly.

What career did you chose?

I don't want to hear it.

Where is everybody?

DAY

Graduation!

We can party now; it's all over.

A SUMMER NOON

Who has not dreamed a world of bliss
On a bright sunny noon like this,
Couched by his native brook's green maze,
With comrade of his boyish days,
While all around them seemed to be
Just as in joyous infancy?
Who has not loved, at such an hour,
Upon that heath, in birchen bower,
Lulled in the poet's dreamy mood,
Its wild and sunny solitude?
While o'er the waste of purple ling
You mark a sultry glimmering;
Silence herself there seems to sleep,
Wrapped in a slumber long and deep,
Where slowly stray those lonely sheep
Through the tall foxglove's crimson bloom,
And gleaming of the scattered broom,
Love you not, then, to list and hear
The crackling of the gorse-flowers near,
Pouring an orange-scented tide
Of fragrance o'er the desert wild?
To hear the buzzard's whimpering shrill,
Hovering about you high and still?
The twittering of the bird that dwells
Among the heath's delicious bells?
While round your bed, o'er fern and blade,
Insects in green and gold arrayed,
The sun's gay tribes have lightly strayed;
And sweeter sound their humming wings
Than the proud minstrel's echoing strings.

STAFF

Administration: Jean Badget, Betty Beck, Lynn Hewitt, Susan Johnson, Eileen Kidd, Carol Leonard.

Library: Doris Pratt, Pauline Eads, Sheila Core.

Max Blackburn, ABE Coordinator.

Jerry Weaver, Director of Learning Resources.

Andy Webb, Audio-Visual Technician.

Business Office: Lib Voss, Betty Newman, Betty Hemmings, Anita Bullin, Bonnie Harris.

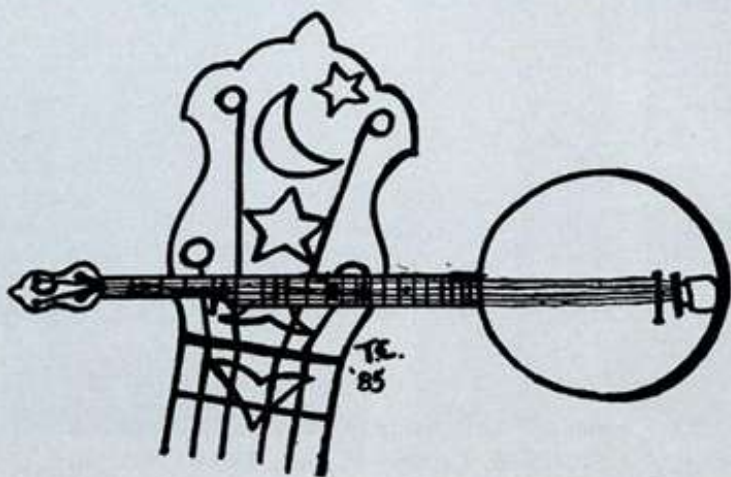

Bookstore: Tom Watts, Pat Pauley, Chrystal Niston.

OTHER STAFF

Pam Boles, Technical Assistant, Biology Department; Kent Brendle, Learning Lab Coordinator; Peggy Comer, Technical Assistant, Business Division; Shirley Edmonds, Technical Assistant, Business Division; Bonnie Harris, Secretary, Business Office.

Renae Harris, Secretary; Pernell Hobson, Secretary for Lillian Satterfield; Carolyn Flippen, Human Resource Development Coordinator; Shelby Pfaff, HRD Program; Lillian Satterfield, Extension Coordinator.

BILL MANSFIELD

VISITING ARTIST

Bill Mansfield, 1985 Visiting Artist from the North Carolina Department of Community Colleges, is a home-grown Carolinian from Raleigh who plays traditional ole time mountain music, combined with coastal folk music to achieve a sound that has echoed through North Carolina for years.

Coming from a family containing several "ole timers," and inspired by his mother, Bill Mansfield began playing the jaw harp at age twelve. He then began playing the harmonica, looking for more sound for his music. In high school, he formed a string band and became interested in playing the banjo.

In 1979, Mansfield, was awarded a grant from the National Endowment for the Arts. The grant permitted him to study for six months under folk musician Fred Cockerham of Belews Creek, NC. Bill Mansfield speaks highly of internationally known Cockerham. "He taught me the emotion that accompanies the ole time style," said Bill Mansfield.

By the fall of 1980, Mansfield entered the University of North Carolina at Chapel Hill and received a master's degree in folklore. During the summer months, he worked as a ranger at Cape Lookout National Seashore. Here, Mansfield helped to organize the Outer Banks Folk Festival that consists primarily of musicians of the traditional ole time sound.

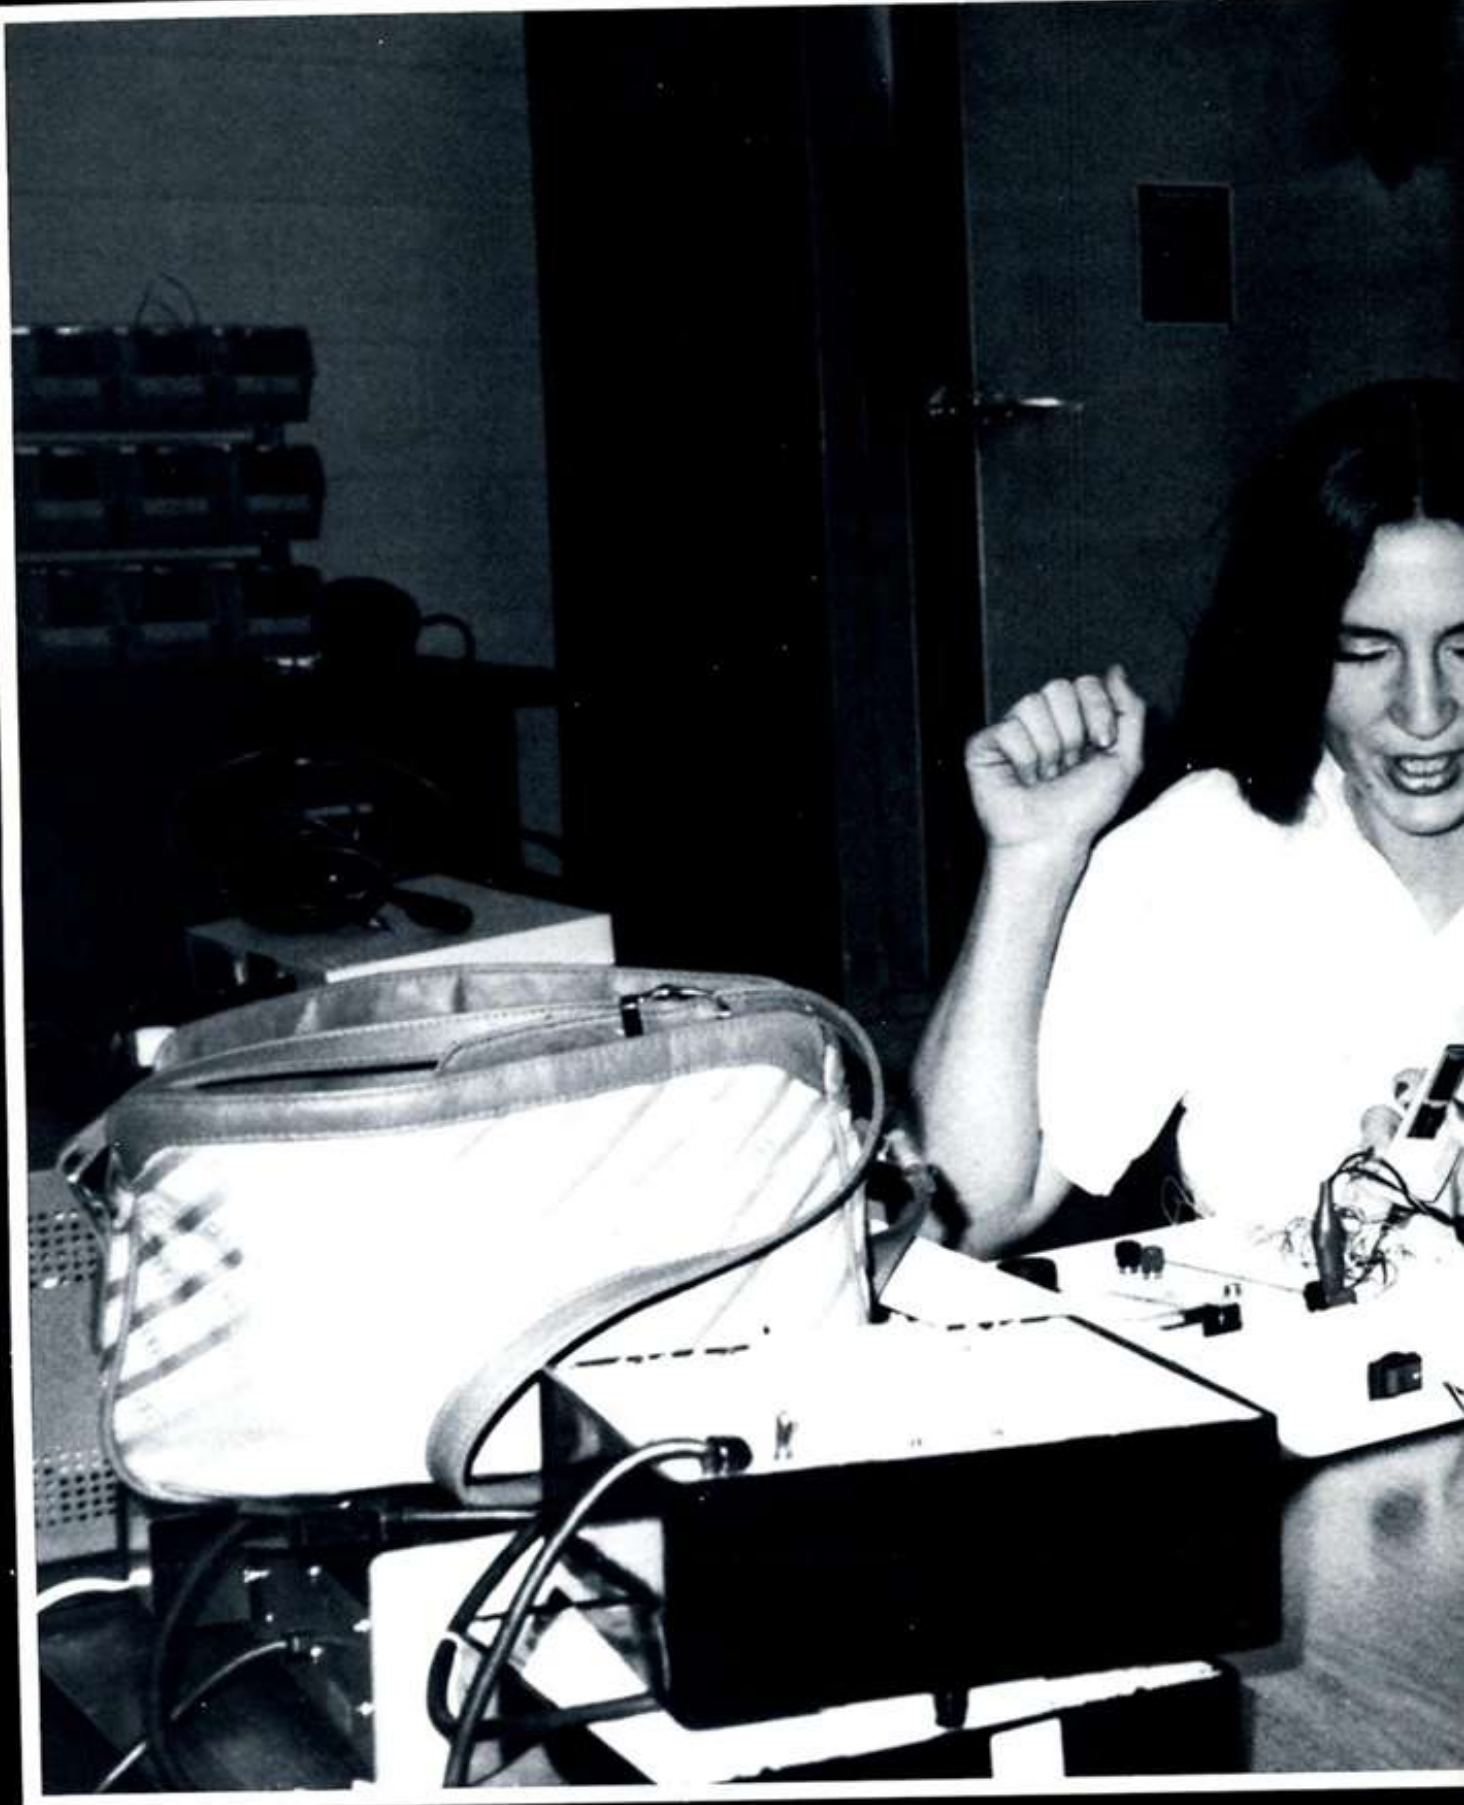

From the coastal region of the state, Mansfield learned the songs of the ole timers of that area and plays many of the tunes in her performances. He has even adopted Scottish bag-pipe tunes brought over by early settlers and plays these songs on the banjo.

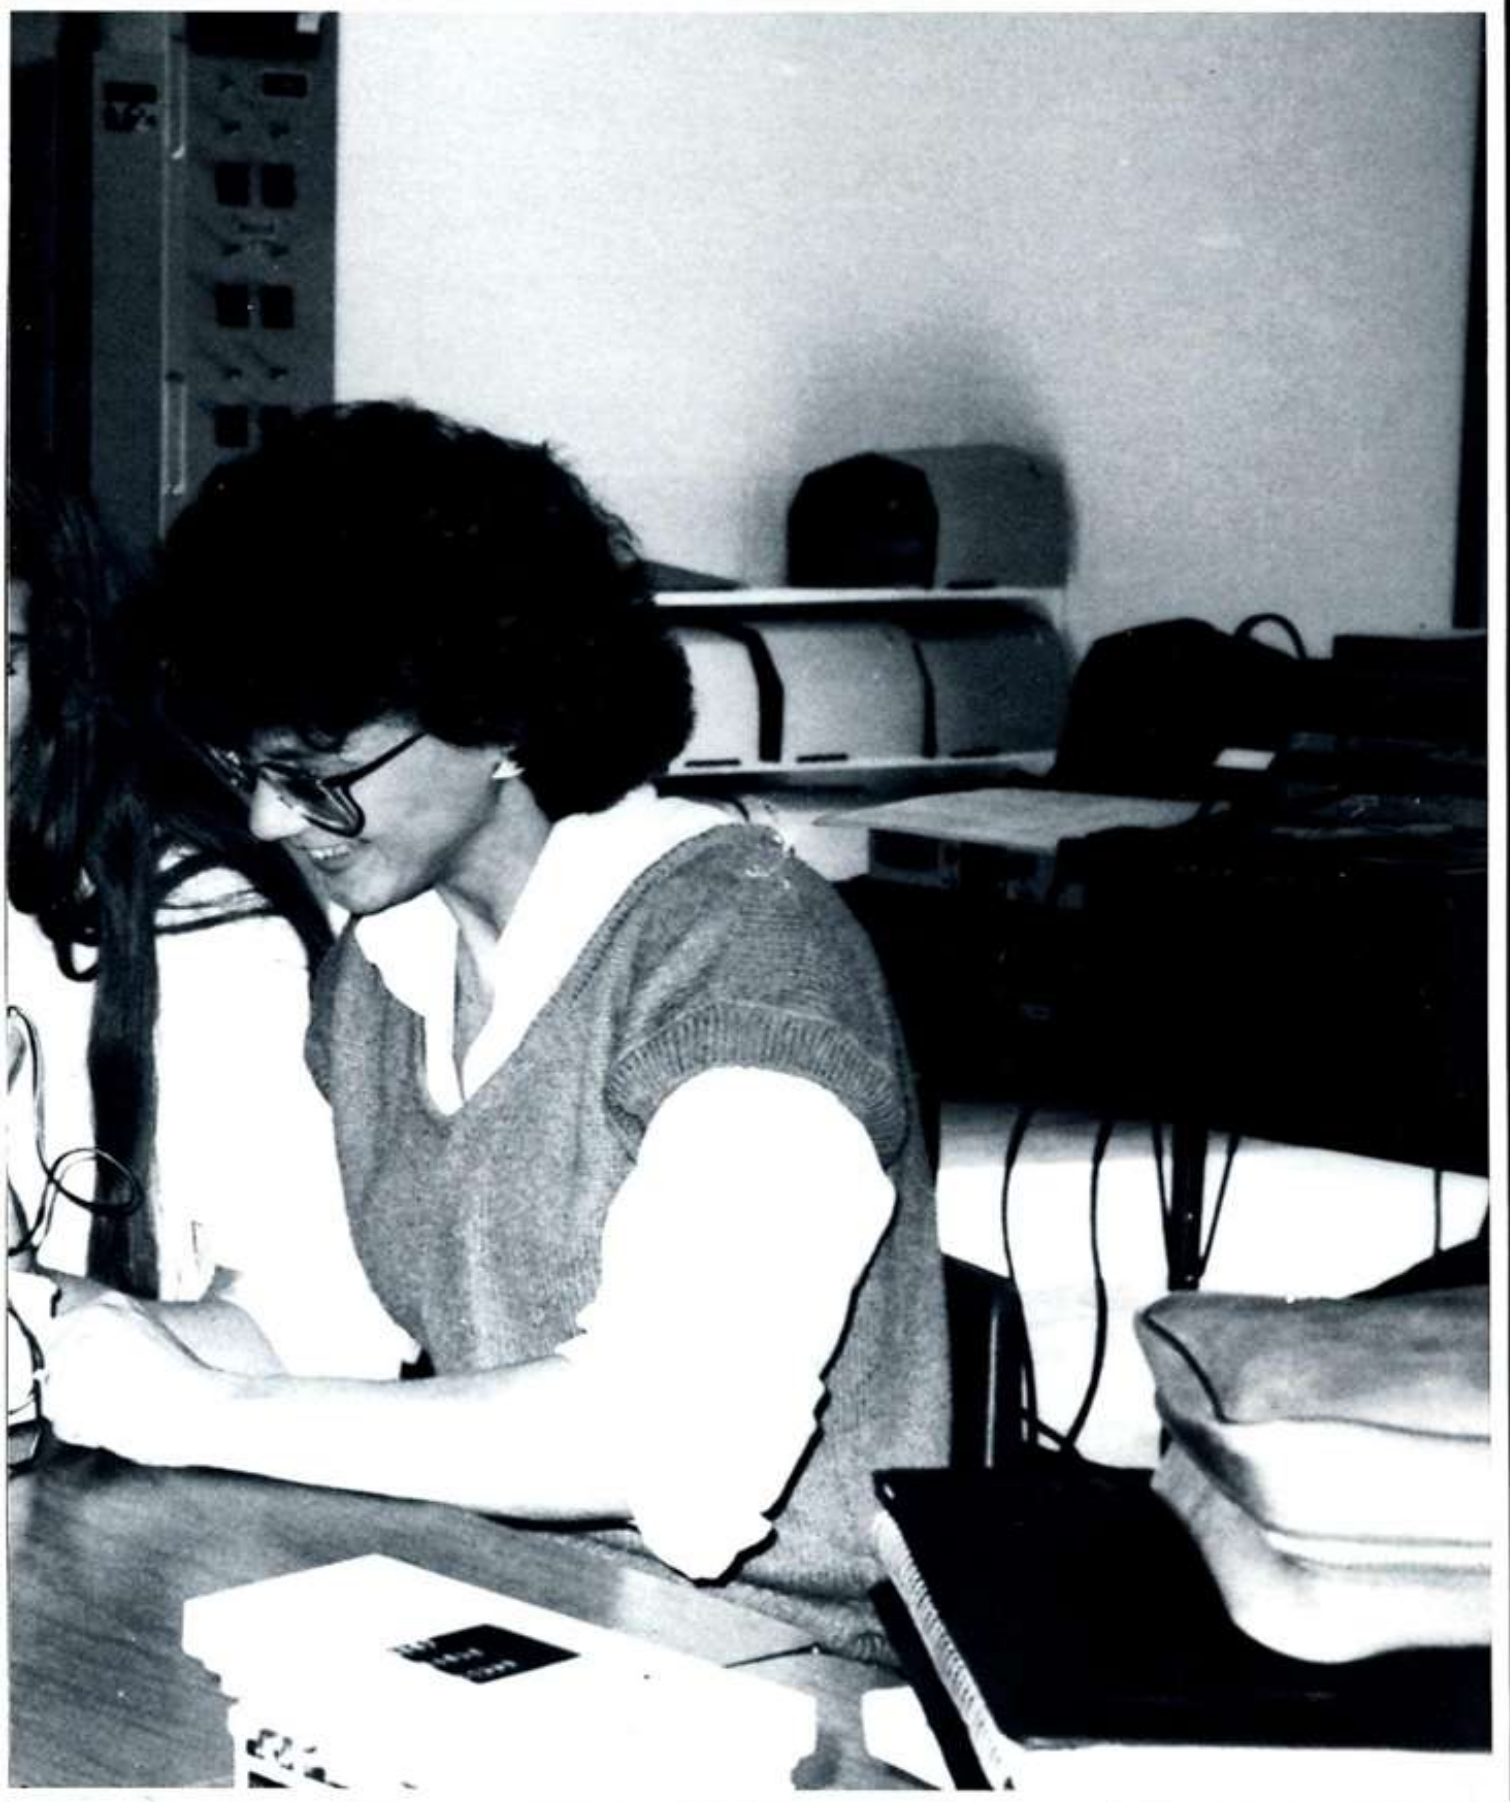

In 1982, he was accepted in the North Carolina Visiting Artists Program. The program is a four-year adventure that has carried Mansfield throughout the state giving him an opportunity to share the music taught to him by so many.

June will end his tour as visiting artist and Mansfield feels that Surry County is the ideal location for his finale. He wants to "stroke the fires already burning here." He hopes "to expose and attract the younger generation," and "bring back the ole time sound" that was born here in the foothills and in the Blue Ridge Mountains. To do this would be to "pass my final exam," stated Bill Mansfield.

As for long-term goals, the Visiting Artist wants to improve and expand his already impressive talent. Bill would like to see a revival of the ole time sound throughout the country. To "return to the basics" is Mansfield's vision for the country music industry. "Many people think that artists play the claw-hammer style or ole time sound because they can't play anything else. I don't think that's true. I consider it a challenge to be able to play within the limitations of the ole time style."

CURRICULUM

Agriculture

The agricultural curriculum is designed to help students acquire knowledge, and ability in the field of agricultural business. Students learn the principles of organization and management in the business area of agriculture.

Art

The art curriculum is designed to provide a number of art experiences—Art History, Commercial Art, Drawing Arts and Crafts, Ceramics, Painting (water color and portrait painting), Flower Arrangement, Oil Paintings.

Auto Repair

The automotive body repair class provides training in the use of the equipment and materials in the mechanics trade. The students study the construction of the auto body and techniques of repair, rebuilding and refinishing cars. Some of the other jobs that are taught are straightening, aligning, metal finishing and painting autos.

Biology

The biology class offers a number of courses to students who are in the science field. An introduction to the fundamental concept of biology, a study of organismic levels, a study of population, a study of microbiology, and a study of the body organization and how it functions are also taught.

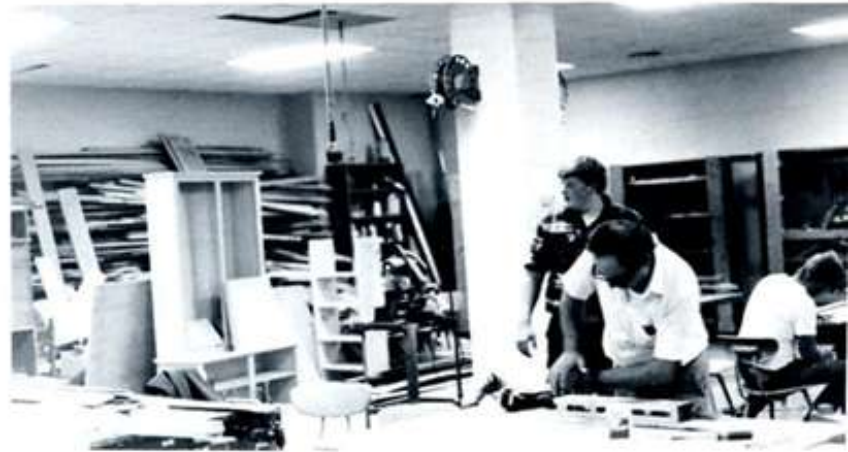

Business

The business classes are devoted to the structure of different types of business organization, financing, internal organization, and management. Emphasis is also placed on typing and developing speed and accuracy.

CABINETMAKING

Cabinetmaking courses at S.C.C. acquaint students with cabinetmaking and millwork used in building construction, the use and selection of tools and materials, as well as cabinet finishing and practical application. An on-the-job training program is also offered.

CHEMISTRY

The Chemistry curriculum involves General Chemistry, inorganic, organic and bio-chemistry, and Qualitative Analysis. Students begin by taking an introduction to chemistry, which includes a basic terminology, physical states, fundamental concepts for atoms and molecules, nomenclature, and stoichiometry.

CARPENTRY

Carpentry includes a study of carpentry as a vocation. Course offerings include: Framing, Carpentry Trim and Finish, Building Codes and on-the-job training opportunities. Students study a variety of facets of residential structures, including material, tools, framing, finishing and roof construction.

COMPUTER SCIENCE

(Electronic Data Processing)

This curriculum, Electronic Data Processing provides opportunities for students to familiarize themselves with an Introduction to Computer Science; Computer Science Programming—BASIC, Advanced BASIC, Assembly Language Programming, PASCAL, FORTRAL, COBOL I and II—Computer Science File Processing; Computer Science Systems Analysis; Computerized Accounting; and Data Processing Applications.

CRIMINAL JUSTICE

The Criminal Justice curriculum is designed to consist of study options in corrections and law enforcement services. One may acquire basic knowledge (such as interpersonal communications, law, psychology, law, and sociology) in the core curriculum. In addition to core subjects, the correctional services option provides an opportunity to study other generally accepted subjects such as confinement facility administration, correction law, counseling, probation-parole services and rehabilitation. Law enforcement offers studies in criminal behavior, criminal investigation, patrol operation, traffic management, etc.

DRAFTING

Drafting and design technicians perform many aspects of drafting such as the drawing of a section, subassembly or major component. Investigating design factors and availability of materials and equipment, production methods and facilities are frequent assignments.

The three courses in economics, beginning with 201, are a study of present word economic systems of Capitalism, Socialism, and Communism, emphasizing American Capitalism. The approach includes: demand, supply, costs, prices, resources-management, money and banking, capital and labor, and the international economy.

ECONOMICS

ENGINEERING

The computer engineering technology curriculum prepares technicians to test, troubleshoot, analyze, calibrate, adjust, install and design precision automated machinery components, devices, systems, instruments, computers, and other digital devices. Technicians obtain performance data on electromechanical systems such as disk and tape memories analog and digital control systems, motor control circuits, printers, and other equipment to enable the engineer in design, specification and installation of peripheral computer systems equipment.

ELECTRONICS

The electronics curriculum provides a basic background in electronic related theory, with practical applications of electronics for business and industry. Courses are designed to develop competent electronics technicians who may work as assistants to engineers or as liasons between engineers and skilled craftpersons.

ENGLISH

The English curriculum can vary from beginning students in English 101, 102, and 103 to different and specialized areas of literature. Journalism and report writing are only two of the additional offerings in the field.

FRENCH

An introduction to French with a modern approach, this course studies the French people, culture, and the country. Intensive review and vocabulary studies are provided.

HISTORY

The sequence course in Western Civilization, beginning with History 101, is a study of the institutions and culture of the Western society from 8,000 B.C. to the present. Topics include the classical Greek and Roman worlds, the growth of Christianity, Medieval Europe, the Renaissance, the Reformation, the emergence of the modern national state, the rise of commercial capitalism, the Industrial Revolution, the French Revolution, liberalism, nationalism, the alliance system, imperialism, World War I and its aftermath, and the ideologies of the twentieth century.

GEOGRAPHY

The geography course concentrates on the earth's astronomical relations. Factors of weather, climate, physical features and changes in land formations are also studied. Production, distribution, consumption and conservation of the major world resources are of interest to students enrolled in this course.

MATH

The mathematics curriculum offers a variety of courses which add students in developing mathematical and analytical skills, including Remedial and College Mathel Mathematics, Pre-College Algebra, College Algebra and Trigonometry, Analytical Geometry and Calculus, Technical Math, Criminal Justice Math, and Digital Computer Mathematics. Courses are also offered in Electrical and Building Trades Mathematics.

AUTO MECHANICS & MACHINE SHOP

The SCC automotive curriculum offers various courses involving auto-mechanical subjects. Some of these include: Automotive Electronic/Electrical Systems; Front Suspension, Alignment and Power Steering; Diesel Engines; Automotive Body Repair; Braking Systems; Small Engine Repair; Metal Finishing and Painting; and Auto Accessories.

Music

This course includes an introduction to music, the history of music, chorus, piano, guitar. An important emphasis is placed on scales, key signatures, chords, and writing music.

Nursing

This course is a beginning concept of nursing care. It helps students with understanding the safe way to give drugs, and how to deal with different people in a variety of ways—whether it be mental health, children, older people, or maternity care.

PHILOSOPHY

This course involves a study of problems dealing with freedom of will, perception of evil, right and wrong, and what these topics mean to man in his everyday life.

PHYSICAL EDUCATION

The importance of individual physical fitness can be taught through the teaching of fundamentals, techniques, and rules of play which are involved in the physical education program. Classes vary in length and capacity for physical fitness activities.

PHYSICS

This course is application-oriented for technicians. It involves the properties of matter and heat, electricity, light and sound, applied mechanics, energy, and applied science.

PLUMBING

This course is designed to help students enter into the general construction field as tradesmen, foremen or general supervisors. There are courses in basic building skills, carpentry, masonry, cabinetmaking, and plumbing.

POLITICAL SCIENCE

This course concerns the national government, its organization, function and power and civil rights. It is also a course in helping students acquire skills which will allow them to effectively assume positions of leadership with occupational, social, cultural, and political organizations.

PSYCHOLOGY

This is a course in studying and learning the purpose of practical skills that can be used in classroom. An introduction of psychology (including pre-and post-natal care, personality, self-actualization, and studying ego and personalities) is all-important to this class.

READING

A course to aid students in improving their basic skills in reading and study. It has also offered the student the opportunity to increase the speed at which he reads.

RELIGION

This course has both Old and New Testament teachings, that are offered to teach the students about history. Special attention is given to the ministry of Jesus.

SAFETY AND FIRST AID

This course consists of principles and practices that can be applied to emergency first aid studies of safety procedures and techniques as related to vocational training.

SOCIOLOGY

This course is a study of society and culture and how we become human beings. The importance of problems in class, racial and ethnic groups, and women are emphasized. The problems of social change, population problems, urbanization, and collective behavior are discussed also.

SPANISH

This course is an introduction to the Spanish language with a modern audio-lingual approach. Emphasis on listening and speaking comes first, followed by reading and writing.

SPEECH

This course involves the study and application of the fundamentals of public speaking. Consideration of speech is involved with oral presentation in improving voice and confidence.

WELDING

This course gives students an understanding of the principles, methods, techniques and skills for successful employment in the welding and metal industry.

CONTINUING EDU

KNITTING

Surry Community College is committed to the continuing education of the adult citizens of its area of service. To fulfill this commitment, the College offers a variety of courses, conferences, workshops, and exhibits designed to meet adult educational needs.

Through the Continuing Education Division, students find opportunities to retrain and update themselves in employment, expand knowledge in general education, and develop creativity in the fine arts.

Other courses are provided in extension centers in the various communities of Surry and Yadkin counties. New classes may be formed whenever a sufficient number of persons show interest in a particular area of study.

In extenuating circumstances, and upon approval of appropriate public school officials, persons under eighteen years of age may be admitted. North Carolina adults age 65 and older may register for classes in the Continuing Education Division free of charge.

CLUBS AND

ACTIVITIES

CHORUS

The Surry Community College Chorus is composed of individuals who enjoy singing and performing. Ages range from college-age to senior citizens. The chorus makes numerous appearances throughout the year at various churches, civic clubs, and organizations in the area.

The two chorus groups (day and night) combine for all concerts at Christmas and Spring. All choral members receive transferrable college credit while singing and developing their voices and musical talents in an enjoyable endeavor. The chorus serves as one of the primary sources of public relations and recruitment for the college and community.

CIRCLE K

Circle K is a service organization that helps the needy through involvement. The club has been on campus since 1967.

Its objective is to serve the campus and the community, to promote good fellowship and high leadership, to cooperate with the educational department chairman of which the club has an interest, to have useful training in social graces and personality development.

The club encourages and promotes the following ideas: to give primarily to human and spiritual life rather than to material values, and to encourage the use of the Golden Rule in life. The club's advisor is Ms. Paula Stanley.

Members (L-R): Front row: Gerrie Moorefield, Dara Collins, Jeff Myrick, Jason Morris, Kim Warden. Last row: Lynn Edwards, Kim Thomas, Sandra Llewellyn, Timmy Martin, Michelle Turney, Donna Bowman. Not pictured are: Greg Felts, Janet McDowell, Susan Heath, Tammy Corder, Lyn Gamble, Amy Delgado.

Officers (L-R): Gerrie Moorefield (Treasurer); Dara Collins (President); Jeff Myrick (Vice-President); and Kim Warden (Secretary).

JOURN

Journalism students get a start on the new LANCER for 1985-86.

Ms. Pam Ring, Advisor.

Sandra Llewellyn, Editor-in-chief of the LANCER, seems worried.

Donna Burnette—really interested in what she is doing.

ALISM

Pam Rogers, co-editor of the SQUIRE'S VOICE, is reviewing her stories.

Jennifer Barrett finds out how interesting the processes are for a new yearbook.

New officers.

SGA is an organization which helps in the establishment of rules and regulations on campus. Training for members will help them in any field they chose. They learn a variety of responsibilities from leadership to getting along with others.

Members: Back row: Robin Marsh, David Baker, Shane Mabe, Danny Bottoms, Jerry Tuttle. Middle row: Sandra Llewellyn, Brinda Allen, Sandra Williams, Kerrie Combs. Front row: Lynne Edwards, Tonda Brooks, Cheryl Stewart.

Government Association

SGA entertains a younger version of themselves. They came from: North Surry, Mt. Airy, East Surry, Surry Central, and Patrick Counties.

Dr. Sherry Madison

A seminar on leadership was on the program as well as group talks about each school's plans for the future.

SQUIRE'S VOICE STAFF

I can't find the pictures I need for my news article.

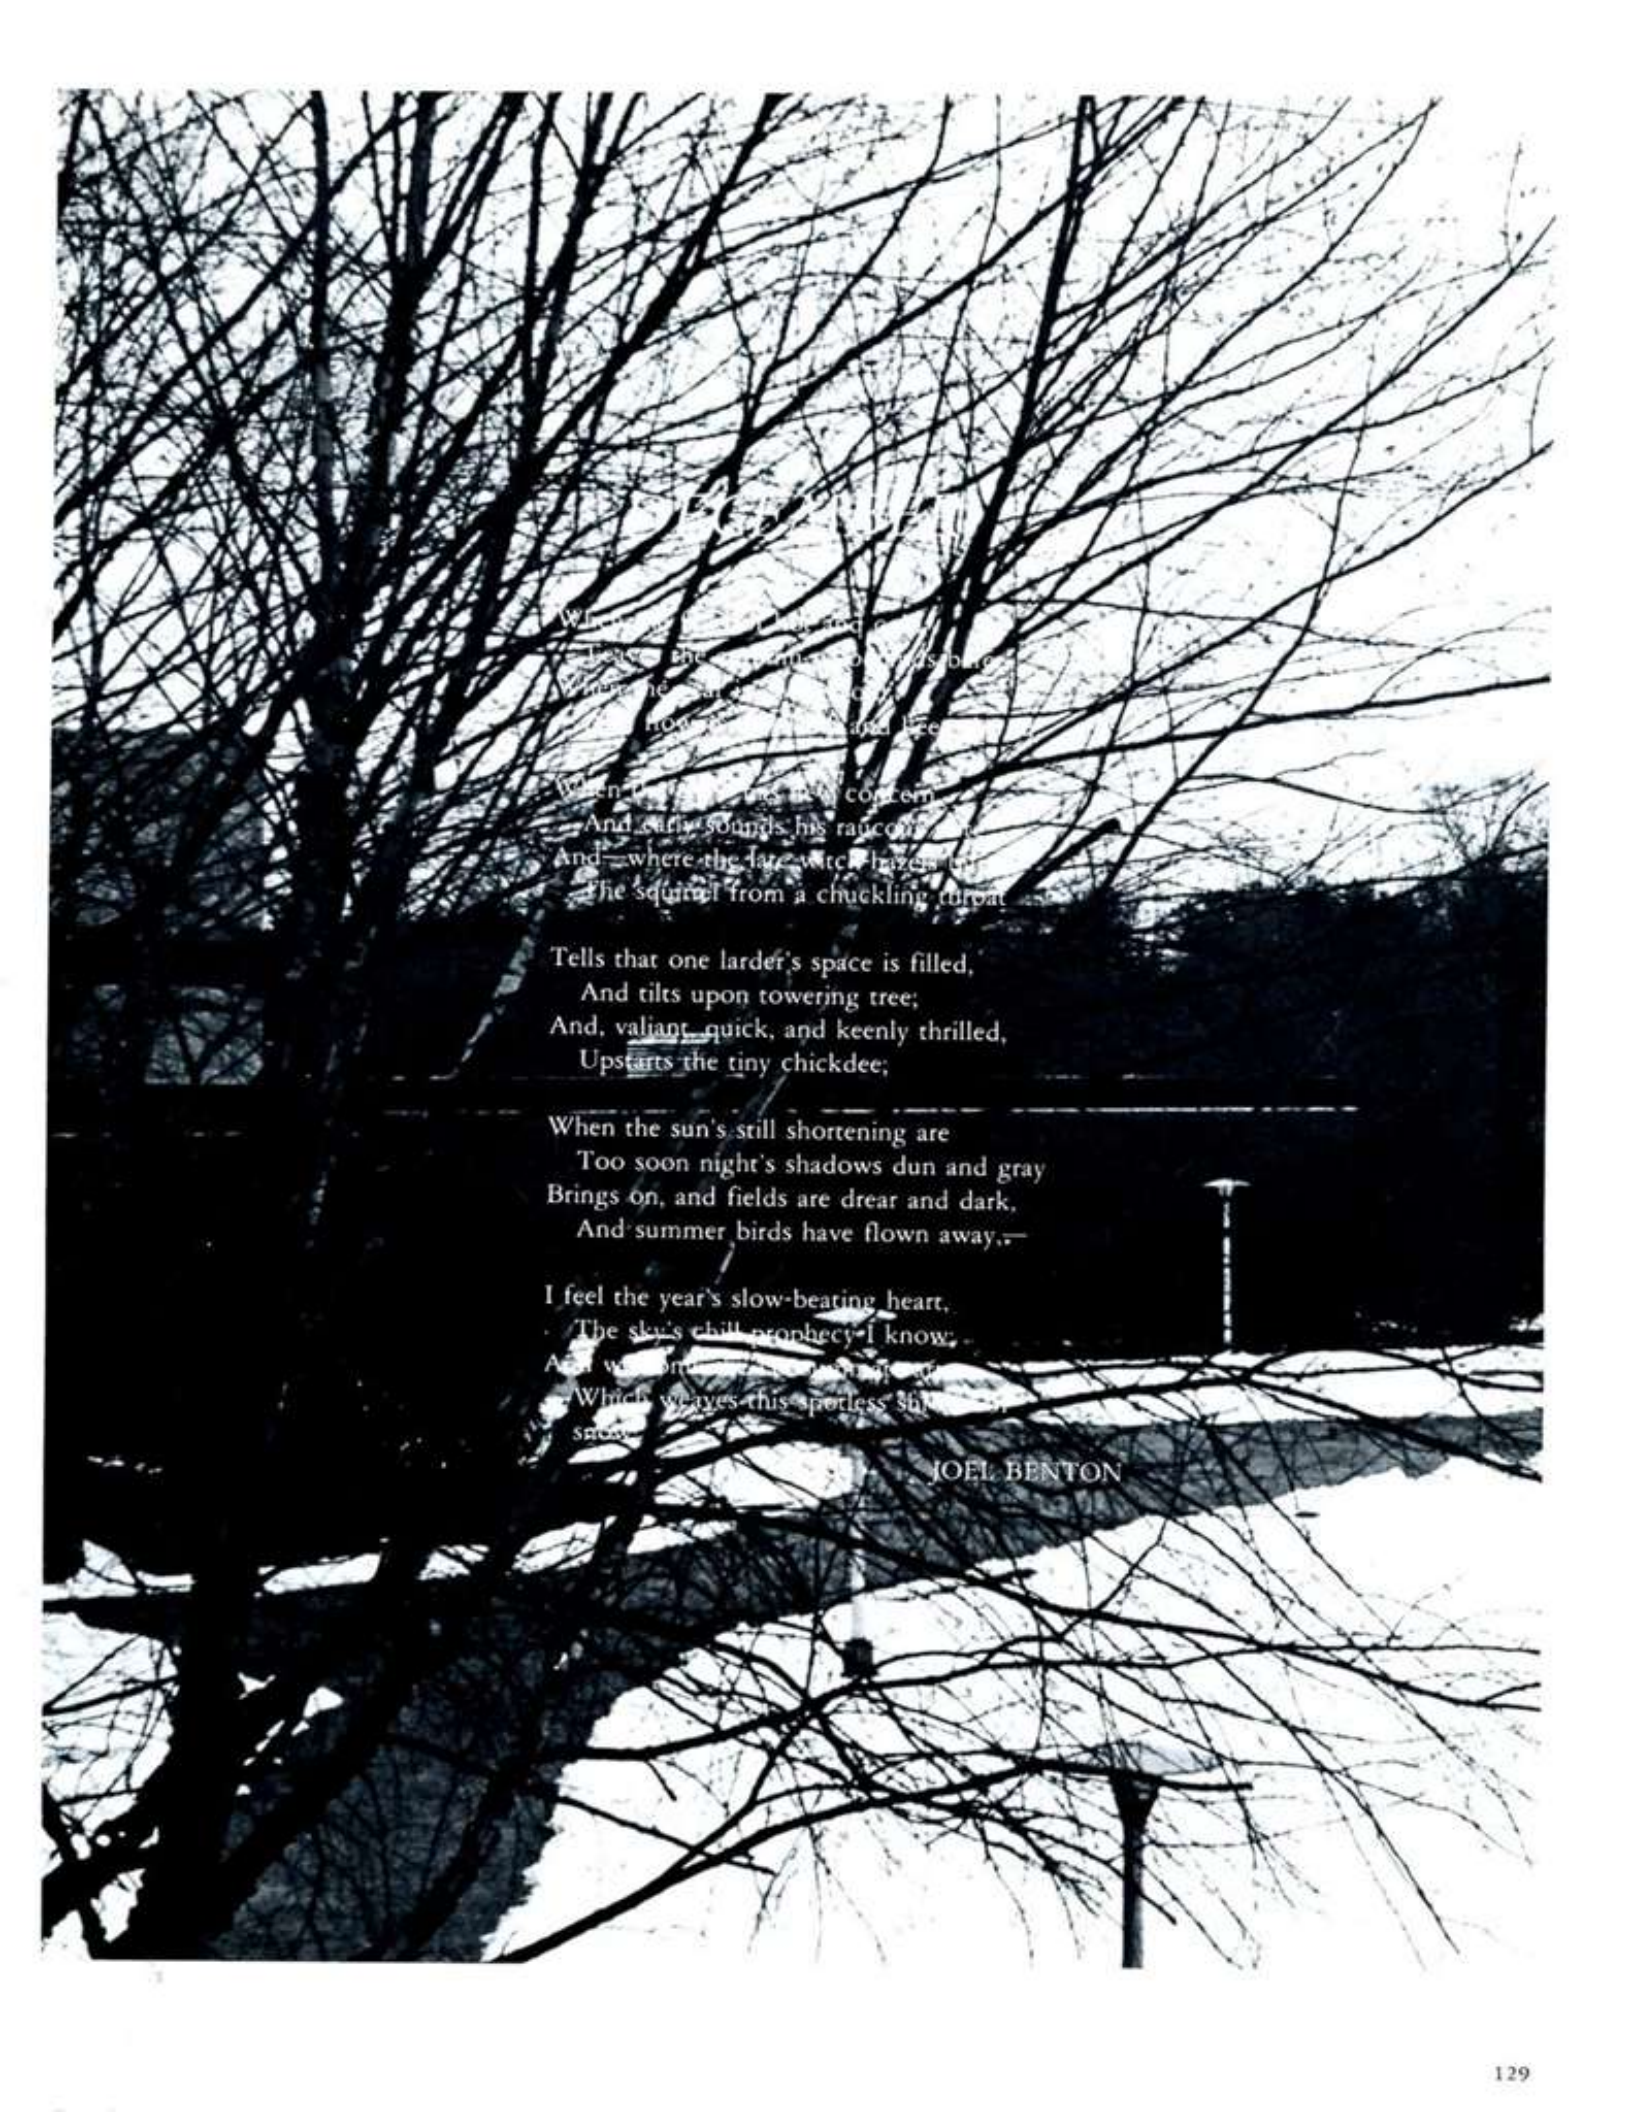

Maybe I can help look.

Sandra Llewellyn, Pam Rogers, Tresea Snow, Shannon Thomas, Ms. Ring, Lynn Edwards.

Ms. Ring helps Sandra Llewellyn and Tresea Snow select pictures.

When the sun's still shortening are
Too soon night's shadows dun and gray
Brings on, and fields are drear and dark,
And summer birds have flown away,—

I feel the year's slow-beating heart,
The sky's chill prophecy I know:
And when the winter wind is cold
Which weaves this spotless shroud
Of snow

Tells that one larder's space is filled,
And tilts upon towering tree;
And, valiant, quick, and keenly thrilled,
Upstarts the tiny chickadee;

When the sun's still shortening are
Too soon night's shadows dun and gray
Brings on, and fields are drear and dark,
And summer birds have flown away,—

I feel the year's slow-beating heart,
The sky's chill prophecy I know:
And when the winter wind is cold
Which weaves this spotless shroud
Of snow
